Into the Light with HemiSync® (2CDs, 4 exercises)

This program features four expertly crafted guided exercises designed to give you a sense of what it is like to have a near-death experience. Created and voiced by near-death experience (NDE) researcher and speaker Scott Taylor, the program is based upon the analysis of more than 6,000 case studies of near-death experiences. The exercises — *Reunion*, *Life Review*, *Cities of Light*, and *Realm of Knowledge* — are designed to be used many times. You can expect a different experience each time, and you'll find your experience of the physical world will become richer as you gain more perspective from the nonphysical.

Will you have an NDE or NDE-like experience? No one can predict what another human being will do. However, you'll have every chance to enter altered states that will allow an experience of expanded awareness to happen. Guidance manual included. Music by Jonn Serrie.
